Since its founding in 1994, KH Chemicals has emerged as a worldwide business partner in the chemical industry. We have always been dedicated to our suppliers and customers who know us as a pro-active company with short lines of communication and quick decisions.

Early 2019 KH Chemicals was acquired by **Ravago Group** enabling us to expand our international presence and pursue strategic growth. Ravago Group is a global chemical distribution company with a leading position in the EMEA and North America region.

Our products can be divided into four product groups: Solvents, Acrylates, Monomers and Plasticizers. We mainly operate in the segments Paint & Coatings, Ink, Glues & Sealants, Resins and various soft PVC-based substances.

Whatever your demand or unique supply problem is, our team always finds the best solutions. Whether it is in isotanks, trucks, IBCs, drums or any other packaging, we arrange this in line with your requirements.

Today's market is very hectic, undergoing rapid changes as it becomes more and more transparent. KH Chemicals prides itself on facing and overcoming these challenges and has managed to develop into a healthy and financially stable company. This is because our priority has always been to build up long-term friendships.

In the end: It's all about people!
